

فاير لينك  
FIRELINK

# ONE - STOP SOLUTIONS FOR YOUR FIRE, SAFETY & SECURITY NEEDS.

## Introduction

Firelink, a leading trading and contracting house since 1996 in Fire Detection, Fire Protection, ELV Systems, Fire Pumpsets, Portable Booster Pumpsets, Sewage/Drainage Pumpsets etc. It holds Qatar Civil Defence Grade 'A' Certificate as Contractor apart from being a member of NFPA & COFSA.

The company represents world renowned principals who provides solutions designed to meet the needs of specific building projects, from commercial, residential towers to hotels, hospitals and industries.

FireLink offers complete turnkey solutions to fire protection and detection requirements inhouse, from design, installation to commissioning and maintenance of building safety & security systems.

These include fire alarms, fire protection, voice evacuation and fire telephone system, fire extinguishers, sprinklers, deluge, foam systems, integrated security and access control systems, fire prevention, clocks, PA system, VOIP system gas detection system, CCTV system, booster pump sets, submersible/sump pumps, etc...

An Impressive product range with renowned principal is part of FireLink's commitment to the highest professional standards and includes Simplex Fire Alarm System, Patterson Fire Pumps, TYCO Sprinkler, Deluge and Foam Systems, SRI Fire Extinguishers, Hydrants and Hose Reel Cabinets, Valcom IP based IP mass notification, Clocks & sound systems, to name a few.

# Mission, Vision and Values

## Mission

Our Mission is to focus on providing most reliable engineering solutions in life safety and building sector.

## Vision

Our vision is to provide industry leading solutions and become partner of choice to our customers, partners and employees whilst adhering to our core values.

## Values

- Quality
- Relationships
- Reliability
- Ethics
- Teamwork
- Empowerment
- Commitment

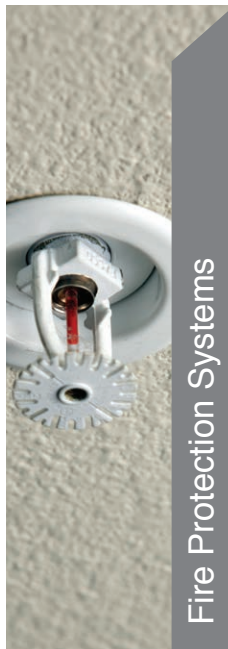

# Product and Services

We specialize in all aspects of fire protection & detection systems along with fire protection equipment & pump sets for Fire, HVAC, Sewage, Irrigation & domestic water. We design, supply, install, commission and maintain Extra Low Voltage Systems such as Fire Detection, Access control, Public Address, Intruder Alarm, Video Surveillance, Central Clock, Nurse Call, Auto Class Changeover, Building

Management Systems apart from Fire Fighting Systems including FM-200, NOVEC, Sprinkler System, Deluge/ Water Spray System, Pre-Action System, Fire extinguishers, Wet/ Dry Risers, Foam System & Fire Pump-sets. We support our customers meet goals, drive action and improve efficiency by streamlining technologies, standards and country specific regulations with highly qualified workforce.

Fire Detection & Alarm Systems

Fire Protection Systems

Extra Low Voltage Systems

Building Automation Systems

Maintenance & Services

# Fire Detection & Alarm

Specialized in fire detection and alarm system, our product range covers all aspects of detection technology including smoke detectors, heat detectors, combined detectors, CO detectors, beam detectors, aspirating smoke detectors, linear heat detectors, standalone detectors, gas detectors and detectors for hazardous environment. We cater to all type of projects starting from small scale standalone fire detection and alarm system to large scale integrated fire detection, voice evacuation and fire telephone systems with networked fire alarm panels and graphics stations.

- Fire Detection and Alarm System.
- Voice Evacuation System.
- Fire Telephone System.
- Networked Fire Alarm System with BMS interface.
- High Sensitivity smoke detection system.
- Linear Heat Detection System.
- Gas Detection System.
- Flame detection system

# Fire Protection

Being specialized in all types of Fire Protection Systems, we offer our services in Design & Engineering, Material Supply, Installation, testing & commissioning and Maintenance of various systems. Our qualified and trained Engineering team is equipped with design and calculation software for Sprinkler Systems, Standpipe Systems, FM200 & Novec Systems. We represent renowned manufacturers for the complete fire protection products.

- Automatic Sprinkler Systems.
- Pre-action and Deluge Systems (Water/Foam).
- Fire Hose Reels.
- Dry and Wet Risers.
- Fire Fighting Pump Sets.
- Fire Extinguishers.
- FM200 Systems.
- Novec 1230 Systems.
- Kitchen Hood Fire Suppression System.
- High/ Low Expansion Foam System.
- Floating Roof Tank Protection System.
- Water Mist Protection System.

# Low Voltage Systems

A certified system provider approved by Ministry of Interior, we offer various security and surveillance system products of latest technology and as per the local regulations. Our Extra Low Voltage product range also covers various other systems to cater the building requirements. This includes the following systems and more:

- Video Surveillance System
- Access Control System
- Intruder Alarm System
- Master Clock System
- Public Address & Background Music System
- Nurse Call System
- Parking Guidance & Management System

# Pump Sets

We with the greatest technical expertise and in house engineers in pumps are able to offer all type of pumps. We cater to all type of industries such as building services, process engineering, waste water treatment, water transport, energy conversion, solid transport industries, fire protection etc...

We offer a total solution including ready for installation booster pumpsets, Fire protection pump sets to NFPA 20, Controls including VFD's and all accessories, for building sectors, industrial sectors etc. Our range of pumps includes but not limited to the following:

- Fire Fighting Pumpsets
- Booster Pumpsets
- Irrigation Pumpsets
- Hot water Circulation Pumpsets
- Waste & Sewage Water Pumps
- HVAC pumps

In Addition

- Control panels & accessories including VFD's
- Process Pumps, Fuel transfer pumps.

# Building Automation Systems

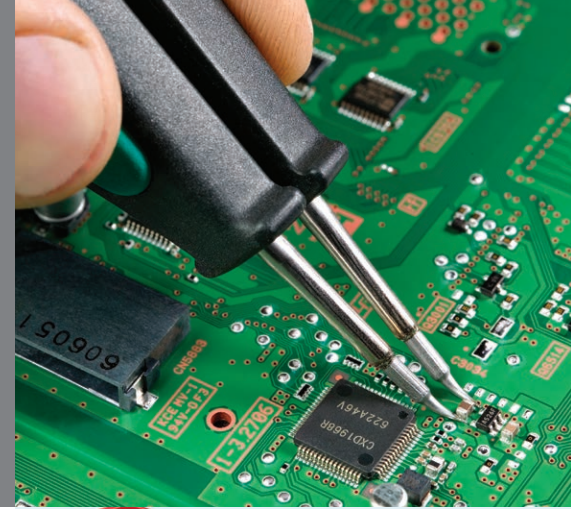

Our team of system integrators with proven experience in building automation, energy management and controls cater to the requirement of client in almost every field.

We represent various principals who are able to provide total solution for every sector say it a villa or a skyscraper, process industry or commercial premises. Integration with fire alarms, access control, CCTV, light controls, central battery, HVAC systems are possible.

- Central Battery System
- Lighting Control System
- Building Management System
- Ventilation Systems & Controls.
- Smoke control panels.

# Maintenance and Services

We undertake annual maintenance contracts, call-off services and service contracts for various products and systems by providing preventive and corrective maintenance. We undertake upgrading of existing life safety systems to comply with local regulations. Our 24 hours/ 7 days service team provides reliable and fail safe service to keep the customers safe in their premises.

We also have all calibrated equipments such as pump alignment tools , digital temperature recorders, Foam measuring meters, noise dbmeter, Vibration meter, refiller of FM200 / NOVEC refilling machines, flow testing meter, Digital Weights scales etc...

- Qualified and experienced Professionals
- 24 hour Emergency services team
- Maintenance of fire systems in accordance to NFPA
- All reports for fire systems as per QCDD requirements
- Maintenance of Fire systems for Oil/Gas Industries.
- Maintenance of pumpsets
- Upgrading of existing systems
- Call-off services
- Refilling facilities for FM200 & NOVEC
- Servicing of Fire Extinguishers
- Retrotec Integrity testing equipments.

# Certifications

TÜV SÜD Management Service GmbH certifies that Firelink has established and applies an Occupational Health and Safety Management System for Engineering, Procurement, Construction, Fabrication & Project Management Services for Fire Suppression Systems, Fire fighting and Fire alarm Systems, Extra low voltage services and Direct sales of Such systems. Proof has been furnished that the requirements according to OHSAS 18001:2007, ISO 9001:2008, ISO 14001:2004 are fulfilled.

# Maintenance Contracts

We are one of the few Grade(A) QCDD Certified Company to execute maintenance of fire detection, Fire Protection & Pumpsets. We maintain many prestigious governments, semi-govt., Private, Airport, seaports, oil& Gas Industries projects few of them are listed here.

- Al Ahli Bank
- Qatar Distribution Company (Qatar Airways)
- Qatar University
- Rizon Jet
- City Tower
- Rail Tower
- Al Jassim Tower
- Newton Schools
- Viva Bahriya at Pearl Qatar
- Forensic Lab MOI
- Supreme council of Health
- Ooredoo Head Quarters
- AutoZ
- Al Meera
- Labour City
- Al Baker Tower
- Hotels and Many Schools

# Major Projects

## Commercial & Residential

- Barwa Commercial Avenue
- Oryx Rotana Hotel
- Dukhan Hospital
- Al Jazeera English Channel Building
- Hajj Office Tower
- Gulf Mall at Gharrafa
- Doha Convention Center
- Al Bakar Twin Tower
- Perlita Tower
- RLIC Various Projects
- Qatar Academy Al-Khor
- Samriya Hotel Tower
- Health Centers
- Schools
- College of Engineers Pharmacy, Males & female Buildings
- Barwa Financial District
- Lusail Various Towers

## Direct Projects With Client

- Qatar University Campus, replacement of Fire Alarm & Fire Protection system
- 32 Villa Project for Hamad Medical Corporation
- Al Jazeera

## Industrial Projects

- Qatalum
- Fire Station Building at Fahahil & Ummbab
- Asphalt Plant Factory
- EPC Siren Project at Dukhan
- QP Central Office - Mesaieed
- Training Centre at Dukhan
- Aerated Concrete Industries Qatar Plant
- New Corrosion & Inspection Lab and Fire Station & Safety Bldgs
- Al-Sulaiti Pharma Factory
- NGL
